Where Science and Summer Fun Meet!

Introduction

It's that time of year again and we've been working hard to prepare a science camp experience that will make your child excited about science. We will explore some new destinations as well as some old favorites. Your student has seen the pictures in the science textbooks, now they can experience the science first hand. Whether it's exploring the physics of ***Sky Diving at iFLY*** or ***exploring the Hill Country by Zip-Line***, your child is sure to learn and see many fascinating things—not to mention have a great time.

We believe the middle school/junior high years are a time for exploring and investigation...and having a little fun learning along the way. Young people are developing their dreams for the future at this age. At ***Summer Science Safari***, we help students envision their futures. We pack as much science and learning into five days as we can, then top it off with lots of fun.

We are excited to announce that Chaille Mapes will be offering the Summer Science Safari Summer Camp at Beck Junior High.

Chaille Mapes attended the University of Houston where she received her bachelor's degree in Interdisciplinary Studies (Science Education). She began her career as an 8th Grade Science teacher in Katy ISD. After 3 years of teaching 8th grade science, Chaille ventured to teach 6th grade science, which she has done for the past 10 years. Additionally, Chaille has coached the CJH Science Olympiad team for 3 years and was even a Counselor for Texas State University's 'Aquatic Science Adventure Camp' for 2 sessions. Chaille has a passion & curiosity for all things science and she enjoys sharing that passion & curiosity with her students. This is Chaille's 1st year leading the Summer Science Safari at Beck. She has a variety of experience leading field trips and a desire to show your students what fun science can be.

Even though the Camp operates from *Beck Junior High School*, all current 5th through 8th grade students in the Greater Katy area are welcome to attend this camp.

Itinerary

Due to the "Field Trip" nature of the Camp, minor schedule and activity changes are likely. Check Website, regularly, for updates.

Day 1

Rock Climbing, Dinosaurs, and Scuba.... We will start the day with an old favorite—a **Rock Climbing Lesson**. We're really excited to offer a great way for the kids to "hang" with their friends. Next, we will be visiting a local **Escape Room** to test the students' deductive ability to get out of things---like school and homework. Lastly, it is back to the area for a beginners **Scuba Diving lesson**. No prior experience needed for this day's dive. **Certified diving instructors** will introduce the kids to the world of scuba diving. Instructors will work with the kids and teach them all the do's and don'ts of scuba diving. Each child will be equipped with the **latest dive gear and instruction**, then they will spend time diving with a scuba tank in the dive school pool.

Day 2

This day we will head to Texas A&M University for a day of real science. We will begin our day with a tour of the **Texas A&M University Medical School**—one of the newest and most modern in the country. Then we are off to learn about **Nuclear Power** and get an up-close look at a **working nuclear reactor**. From there we will stop at **TEEX Fire Fighting School and Disaster City**; Disaster city is a mockup of a destroyed town. Crushed buildings, massive car pile ups, train wrecks and crashed airplanes are all used here to teach lifesaving skills. Then, it is on to a **Cold-Physics Presentation** by professors in the **Physics Department in the Stephen Hawking Auditorium**. *Have you ever stuck your hand in Liquid Nitrogen?* It will give you chills! Our last stop is the **Chemistry Department** where the students will be given a great **Chemistry Show....** Sparks will fly! Look out for More adventures to be added--like blowing up something!

Day 3

Wednesday, we're off to **Schlitterbahn** in New Braunfels for an afternoon of **breathtaking rides, cool streams, and entertainment**. Later, we will be staying at the **Comfort Suites in New Braunfels** where there will be separate girls' and boys' rooms.

Day 4

On this day we start the day at **Natural Bridge Caverns** where the students will explore one of the finest show caverns in Texas. Next and new this year, we'll visit underwater meadow of **San Marcus Springs** and tour in **Glass Bottom Boats** where the students will see how the **Edwards Aquifer** feeds the area. Next, it's on to the **Wimberley Zip-Line**. Here trained professionals will take us on a **Zip-line tour over the Texas Hill Country**. Emphasis will be placed on **ecology, safety,**

and fun

Day 5

On our last day we'll be floating and flying...First, we start our final day with a tour of the **Galveston Bay by tour boat where, in addition to great views, the students will get to study the ecology of the Bay**. Next, we finish our week with a sky diving adventure at **iFLY** where the students will discover the thrill of this fun sport. **What a week!**

All of this for only \$699.00 including all travels, tickets and entry fees.

Lunches, snacks, gifts, and souvenirs are all the responsibility of the parents and students.

This year only, we will be collecting Registration Fees LATER IN THE SPRING FOR ALL until such time as we get final approval from the State to conduct "Traveling Camps" like ours.

Register NOW, Pay LATER!

All participants must be current (exiting) 5th through 8th Grade Students (SY 2020/2021). There is a minimum of 10 and a maximum of 13 participants to fill each session. Additional applicants will be placed on a waiting list. Pick Up and Return will be at Beck Junior High School in Katy.

The **Summer Science Safari** is a privately company and is not affiliated with any Public or Private School in any manner.
